

# ENERGY METALS

Energy Metals is a division of Energy Engineered Products (Pty) Ltd. We are a leading stockist and importer of a wide range of industrial stainless steel products. Our excellent team of sales consultants are well placed to assist our customers with technical advice and commercial aspects on our range of products. We supply from stock and ex-mill for larger projects. Our extensive network of international suppliers assist us in meeting our customer's needs. At Energy Metals we value quality as our most important principle. This applies equally to our products as it does to our service and internal quality standards. Come to us for **experience, expertise & excellence** in industrial stainless steel.
